Permis de conducere

Categoria: B

five car dealerships (Peugeot, Opel, Haval, Baic and Chery brands), service department (up to 50 working posts) and warranty department. Optimized the planning, expenses, marketing and KPI, leading to work process automatization. As a result, the volume of monthly sales increased more than twice, with a significant rise of rentability and company's net profit. In terms of sold cars numbers, the company moved from the second tenth to the second place on country market.

Chief Business Development Officer · Accent Group

Iunie 2016 - Iulie 2018 · 2 ani 1 lună

Worked as a part of management team in one of the oldest, leading cluster of companies in Republic of Moldova.

While working at Accent Group, was involved in current projects and analysis of potential new ones in different domains:

- IT -software projects (e-learning, online services and support), IT infrastructure projects (optical lines) and projects based on blockchain technology.
- Residential construction – the “Ambassador Residence” project and other real estate projects, both residential and commercial.
- Automotive – performed the analysis of the potential import of Chinese cars on local and European market (negotiating with major Chinese manufacturers as Geely, FAW, BYD, Lifan) and studying the possibility of local assembly, in the form of CKD or SKD. Analysis of the potential of import of electric cars, and creation of an electric-only car dealer. Analysis of the potential and readiness of the local market for a Car-Sharing startup.
- Energy –preparing project description, business plans, feasibility studies, legal framework, and financial analysis of energetically projects, both in traditional energy production (project researches with the biggest Chinese companies in the field of energy – CNEC, CNNC, CNNP, CSCEC, Nova and others) and also in solar energy production.
- Infrastructure – market analysis and preparation of necessary documentation and feasibility studies for projects of roads and bridges constructions (in cooperation with Chinese companies).

Project Manager · DAAC System Integrator

Mai 2015 - Mai 2016 · 1 an 1 lună

Responsible for IT, ERP and Software projects, implemented by DAAC System Integrator in different areas (banks, state entities, such as CNAS, CNAM, BNS, Wineries, IREX project for libraries and others).

While working at DAAC System Integrator I was involved in managing different IT projects:

- Projects from E-Government range – projects related with implementation (development, adaptation, modification, update, support) of e-government software and its different component parts in corresponding state institutions, like National House of Social Insurance, National Medical Insurance Company, National Bureau of Statistics and others.

- IREX Novateca - an initiative by IREX (Moldova's division of a global development and education organization), to create the project Novateca, a network of more than 1,000 public libraries in each of Moldova's 35 administrative regions, providing the public with 21st-century technology tools, digital literacy learning resources, and community services that address local needs. DAAC System Integrator has been selected by IREX as the supplier of the Hardware and Software solution and implementer of the project in selected libraries.
- Other IT projects - like the software and hardware solution for the State Hydro and Meteorological Service, IT solution for CNVCPA (National Center of Alcoholic Beverages Testing), and others.
