Project Manager

About me

I have been working in IT more than two years, combining technical expertise with creativity and strong communication skills. I started as a junior fullstack developer and worked in this role for a year before transitioning into project management. Beyond my main work, I explore web design, graphic design, and 3D modeling as personal interests. I am always open to new creative projects and opportunities to bring fresh ideas to life.

Work experience

Project Manager · Galex Studio

March 2024 - Present · 12 months

- Led the development of a large-scale application for a private clinic, overseeing the entire project lifecycle.
- Designed and developed application mockups.
- Conducted full-scale application analysis, gathering requirements from clients, processing their feedback, and defining system specifications.
- Collaborated with clients and the development team to refine application structure, functionality, and visual representation.
- Organized and facilitated team meetings, ensuring effective communication and progress tracking.
- Conducted in-depth research on documentation and provided analytical reports to enhance project strategy.
- Presented projects to clients, effectively communicating technical solutions in an understandable way.
- Collected and analyzed client feedback, optimizing project features and addressing concerns proactively.
- Created and managed tasks using Agile methodologies, ensuring smooth project execution.
- Tested developed features, providing structured feedback to developers and improving product quality.
- Provided software support, diagnosing and resolving user issues efficiently.
- Authored comprehensive user manuals for the system, ensuring clear documentation for end users.

Skills: Microsoft Office, Agile Methodology, Git

Risk management specialist · RENAM

September 2023 - Present · 1 year 6 months

- Contributed to the development of risk management training scenarios (CLAW), ensuring realistic crisis simulations.
- Acted as an exercise leader during CLAW 2024 online, coordinating teams and facilitating decision-making.
- Managed real-time crisis response as a responsible cell member during CLAW 2024.
- Attended the Security Bootcamp in Amsterdam, gaining expertise in cybersecurity risk mitigation.

Skills: Communication & Coordination

Junior Software Developer · Galex Studio

September 2022 - March 2024 · 1 year 6 months

- Developed a web application for organizing and managing meetings, increasing workflow efficiency.
- Maintained direct communication with clients, gathering requirements and ensuring project alignment with their expectations.
- Built a PowerPoint generation system that automated presentation creation, saving time for users.
- Led the development of a hospital management web application, enabling efficient patient and procedure tracking.
- Designed and optimized database structures, improving system performance and data retrieval efficiency.
