QA Automation Python, JavaScript , Playwright, Selenium

Despre mine

Dynamic QA Professional with extensive expertise in manual testing and a strong foundation in automation. Skilled at detecting and tracking issues using Jira, ensuring project timelines are met. Proficient in API testing with Postman and experienced in client-server architecture, HTML, CSS, SQL, and GIT. Adept at drafting API specifications in YAML for Swagger documentation.

In automation, I bring hands-on experience in Python, focusing on frontend testing with Selenium and backend testing using the Requests library. Proficiency in Docker and GitHub Actions allows me to create reliable automated testing environments and seamless CI/CD workflows. Additionally, I've integrated Allure for generating detailed, visually rich test reports. Recently, I've started exploring Playwright with JavaScript to expand my automation expertise.

Experiența profesională

QA Manual += Automation · Development Aid · Chișinău

Septembrie 2023 - Prezent · 1 an 6 luni

Performing manual tests for both front-end and backend to ensure product quality. Generating bug reports and actively contributing to product quality improvement.

I touched a bit on Automating of interface tests using Python and Selenium. Developing API specifications in YAML for Swagger and automating the API with the requests library.

Competențe: CI/CD Integration, Scripting & Programming, Testing Frameworks, Python, Selenium, Pytest, Debugging & Reporting, Playwright, JavaScript, Allure, Docker, Automatizarea Testelor

QA Manual · Romark Code · Chișinău

Februarie 2022 - August 2023 · 1 an 7 luni

I helped familiarize the team with the work of the quality test engineer and the collective role in improving product quality. In

addition, I actively participated in team and client meetings. Similarly, we conducted product testing using checklists and test cases we created, promptly documenting issues identified in bug reports and ensuring proper functionality. All these efforts aimed to finally deliver a high quality product.

Competențe: Backend testing, Postman, Quality Focus, Attention to Detail, Organization

QA Manual · Paynet · Chișinău
