Engineering Manager

Despre mine

People focused , highly motivated individual and very interested in learning and also developing not only myself but also others. Adrenalin is a stress reliever.

Experiența profesională

Head of Engineering · Fujikura Automotive

Martie 2018 - Prezent · 6 ani 9 luni

During the last year of work, we had a lot of crisis periods due to pandemic situation, with high % of TO and high % of Absenteeism and we always managed to assure the client with high end quality product and needed volumes. All the Inventories, 1 DP, 2DP, IATF's, Audits, Model Year Changes, ramp ups, ramp down and crisis management were all passed successfully.

Mission:

- Implementation of new projects based on customer specifications and respecting the budget.
- Provide supervision and guidance to engineering team (20 employees)
- Develop and manage GENEX budget, also by providing cost reduction strategies.
- Develop and coordinate CAPEX budget and monitor the actual expenditure.
- Create reports to give updates and proposal on projects for better efficiency of production.
- Prepare Engineering Improvement Plan for the next financial year.
- Offering the needed support for the plant KPI.
- Prepare the annual plan for the next financial year.
- Modify the methods for the process and also adjusting the HC based on the customer volumes demand.

We managed to implement new processes, automatize old processes, PRP, automatize old processes and make the project more profitable.
