Volunteer, social worker

Despre mine

I am a sociable, cheerful and at the same time responsible person. Due to the war in my homeland, I was forced to leave for an indefinite period. Now, more than anyone, I understand people who are in trouble and I really want to be useful to society! Help anyone who needs help!

- operation of data transmission systems and computing systems;
- designing a wide range of objects and systems using web design and computer graphics;
- introduction of information technologies in the field of control systems
